

GEOFFREY PUGEN

A graduate of OCAD and an MFA graduate in Film & Video at York University, Geoffrey specializes in photography & video, and shows internationally. With theatrical absurdity, he explores the relationship between the real & the perceived, the natural & the virtual, man & animal; all through altering and manipulating media. Insightful, yet humourous, Geoffrey asks us to question what we think we know, society's perceptions of us, and our preconceived notion of self, through fictitious constructs.
